

Dear Sir/ Madam

## **PRESS RELEASE**

### **SquareOne and Open Text Delivers Complete FoIP Solution with the addition of Fax Gateway in the Middle East.**

**28<sup>th</sup> February 2010** – SquareOne and Open Text™ Corporation (NASDAQ: OTEX, TSX: OTC), a global leader in enterprise content management (ECM), today announced a complete range of fax gateways that give organizations of all sizes a single source for all their fax over IP (FoIP) needs.

The Open Text Fax Gateway is designed to simplify Fax over IP (FoIP) implementations by providing fax-specific interoperability and support for a wide range of network environments. The Fax Gateway serves as a cost-effective alternative to traditional fax boards and remote fax board servers, and is optimized to work with T.38 and the Open Text Fax Server, RightFax Edition. By coupling Fax Gateway with the Fax Server, Open Text offers a complete FoIP solution designed to reduce costs, maintain flexibility and interoperability.

“We’re seeing more and more interest in fax over IP in organizations of all sizes because it gives them a promising way to lower costs and consolidate resources,” said Matthew Brine, Vice President, Fax and Document Distribution, Open Text. “The combination of our Fax Gateways and market-leading Fax Server software makes it easier than ever to deploy a highly sophisticated FoIP solution that delivers considerable TCO savings and improves business processes.”

Open Text will sell and support the Fax Gateway in the middle east through SquareOne Technologies. For complete details on the Open Text Fax Gateway, visit <http://faxsolutions.opentext.com>. For purchasing information, contact Ghassan Surkhi SquareOne Technologies, Ph: 9714 3259500, Dubai, UAE or email [gsurkhi@squareonemea.com](mailto:gsurkhi@squareonemea.com)

The Open Text line of fax server and document capture solutions, offered as part of the Open Text ECM Suite, allows customers to convert documents arriving by fax or mail to electronic form, so they can be managed online. Customers can use Open Text solutions, for example, to automate the process of inputting information from thousands of paper invoices, and eliminate the inevitable errors involved when paper-based data has to be entered by hand. The solutions work with Open Text’s portfolio of ECM products that manage ERP-related content from SAP and Oracle systems.

### About SquareOne

SquareOne Technologies, a niche Value Added Partner & Distributor in the ICT sector, providing regional sales and service in GCC countries with presence in UAE, Qatar and Saudi Arabia.
